

Attached are photos of what remains of a 2007 Suburban.

This fire resulted from leaving an I-phone charger/docking station plugged into the car outlet. It overheated and started a fire, while parked in a private garage.

PLEASE unplug anything you have in your car outlets once you turn off your car!

VERY fortunate that the fire was discovered, at 11pm, before going to bed and before it spread to the house.

No garage heat detectors or house smoke alarms went off.
