Vehicle history report

Report is not available for purchase

Trusted partner

Possible reasons why a report is not available:

- The vehicle is too new to have a history report.
- The vehicle was manufactured prior to 1981.
- The vehicle didn't have a 17-digit vehicle identification number.
- The vehicle wasn't intended for the US market (such as limited production exotics).
- The seller didn't enter the vehicle identification number correctly.

Item description from the seller

- **1974 Porsche 914 1.8**

Matching numbers engine, transmission, complete original car; Bosch fuel injection still intact. Original date coated glass, solid floors and front and rear trunks. Original spare tire is present, still connected is the wind shield washer reservoir. All interior parts are there even the radio.

However; there is rust in the battery area. Car would be an excellent restoration project or a very complete parts car.

Engine does not run although the fuel tank seems clean. Car has been in dry storage since 1984.

Has original steel wheels that show some rust, tires are junk. Have a excellent set of original '74 914 Fuchs with recent Michelins available for the car at extra cost should the buyer be interested. Original paint color silver with black interior; original Porsche color code is 91566. Car will be sold on bill of sale as eBay did not provide a listing box for that.

Will answer any questions that I can, or provide any close up photos requested thats possible. Please rely on pictures, the car is being sold **as is** where is, but can assist a shipper with help loading. Free local pick up.
