

914 Limited

Brad Mayeur

September 14, 2021

This letter is to state I have thoroughly inspected a 1973 Porsche 914/1.7 S/N 4732913169 with 82,749 actual mileage in order to establish the current replacement value. This is a Zambezi green with original black interior. This car also has the rare sway bar option. In addition, OEM 1973 914 Fuchs wheels were added. This car was purchased from the original owner after long term storage. After the purchase the car was completely disassembled for a high quality restoration which included:

Complete repaint from bare metal

Top end rebuild and reseat of the engine

Rebuild and reseat of the transaxle

Complete rebuild of the brakes

This car is in excellent condition throughout and shows in a high #2 condition.

I was involved in all parts of the refurbishment and can place the current replacement value at \$38,000.
