This car is being sold due to a death in the family. My step-father and his mechanic were in the process of rebuilding the car when he took ill, so the car is in the state described below. Price = best offer. The race mechanic says it will take about \$10k to restore the car to racing condition.

Please note that the car is being sold through probate. We have received final approval from the court to take written offers on the car. Please submit any formal offers via email.

The car was known in the racing world as "Sluggo". It held many class track records at many West coast tracks and won many championships.

Rolling chassis

Chassis and body in good shape

All body panels on car

Engine in pieces - short block

Engine mount with engine

Engine size 2.7 liter, ~240 h.p.

Regular 901 transmission

Weight ~ 2400 pounds

The pictures below are of the car when it was fully assembled.

Trailer is 24 foot 1991 PACAM. Has brake problem - brakes were locking up last time it was used.

Car is garaged in Morgan Hill. Email if interested and Ill put you in touch with my late step-father's mechanic who can answer further questions and/or show it to you.

- it's NOT ok to contact this poster with services or other commercial interests
