

TO ALL PROSPECTIVE CHALON KIT OWNERS:

Thank you for the patience you have shown us in waiting for the enclosed Chalon Kit Instructions. Apologies are sometimes satisfactory, but we feel we have been overdue in the publication and distribution of the Chalon Instructions.

The only reason we can offer is the importance of the formulation of of informative material and completion of a detailed, comprehensive outline. We found changes along the way and even during the printing of this brochure we added an improved feature to the Chalon Kit. The Kit now includes complete front fenders which will eliminate several hours of assembly time. We will continue to keep the best interests of you, our customer, in mind at all times.

Our people at Mitcom are anxiously awaiting your response. We hope the enclosed information will be beneficial to you in your decision to step into a Chalon.

For your convenience we have enclosed a self-addressed, stamped return envelope with an order form. The Part Number for the Chalon Kit is FP 4378. Our current catalog price is \$ 1350. Should you wish to purchase a Chalon Kit the lead time is 60 days from receipt of order.

For the next three months, as a special thanks to those of you who have patiently awaited these instructions, Mitcom will offer you the Chalon Kit for \$ 1150 (our previous price). After October 1, 1979 the price will once again return to \$ 1350.

Sincerely,

MITCOM INC.
